Yandex (Disk)   Moscow, Russia
Android Engineer (Intern)   *Jul. 2022 - Oct. 2022*

- Improved the feature of cleaning up space on the phone for photos uploaded to the cloud
- Provided cancelability of some application processes

PROJECTS

IPONWEB UserverX
Java, Algorithms and Data Structures   *Jun. 2023*
Optimizations for the targeted advertising engine

L compiler
Lama   *Apr. 2023*
Development of a compiler for custom programming language

Tinkoff graduation project
Kotlin, RxJava2, Retrofit, MVI, Material Design, Navigation Component   *Jun. 2022*
Custom mobile client of zulip work messenger

ADDITIONAL EDUCATION

- **Yandex Academy** - School of backend development (C++)   *Jun. 2023 - Aug. 2023*
- **JetBrains Academy** - Kotlin developer   *Oct. 2022 - Jan. 2023*
- **Tinkoff Fintech School** - Android kotlin junior course   *Mar. 2022 - May 2022*
- **Tinkoff Generation** - Algorithms and data structures   *2020 - 2021*
- **Samsung IT school** - Android java course   *2020*

ACHIEVEMENTS

- All-Russian Olympiad in Informatics, top 1% of over 50000 participants   *2021*
- All-Siberian Open Olympiad for schoolchildren, prize winner   *2021*
- All-Russian Team Olympiad in Programming, prize winners   *2021*
